Examiner's Comment

Authorization for this examiner's amendment was given in a telephone interview with applicants' representative, Mr. Armstrong, on June 26, 2006.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The claims are allowed primarily because of the essential limitation to dosing the selected initiator "from the point in time *at which none of the monomer has been polymerized* until at least 70% of all the monomer is polymerized, to the reaction mixture *at the polymerization temperature ...*" (Claim 1, ll. 3 and 6-8).

The closest prior art, i.e., the Speikamp and Paleja references, neither teach nor fairly suggest starting the dosing of initiator at the polymerization temperature and prior

to the conversion of any styrene monomer to polymer, as noted in applicants' arguments filed May 24, 2006 (Amendment, p. 10).

Accordingly, claims 1-11 and 14-27 are deemed to define allowable subject matter and passed to issue.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
